

deco&deco

HAND FINISHED CREATIONS...
ENDLESS INSPIRATION.

BECAUSE *it's not just a* WINDOW

In today's world, it's exceedingly rare to have a devotion to detail that extends to every facet of the room. Yet in residential design the key is to convey individuality... and details matter. At Deco & Deco our artisans and craftsmen create the finest, the unique, the extraordinary, in window treatment hardware. It's pure artistic expression in blown glass, imported crystal, metal sculpting and hand finishing. You're invited to explore the collections that take hardware from functional to objects of desire.

AGE OLD CRAFT *with a modern* TWIST

Murano Collection

It's sheer bliss. Imported from the shores of Venice, Italy where history, style and culture come together in a tapestry of beauty. Our Murano glass is soft spoken magic, offering tradition and innovation. Whether the design was inspired by a faceted perfume bottle or the geometry of a dimensional cube, bringing those ideas to light is the art and craftsmanship all in one collection. Eminently stylish with refined finishes using techniques handed down from master to apprentice, generation after generation. Explore the finest material made from the finest artisans.

FIRE & *passion at 1400* DEGREES

The crimson colored Venetian glass molds deftly in the skilled hands of the glass master. Harnessing the heat at a blistering 1400 degrees — rhythmic movements, a trained eye and the passion to create another heirloom is in the making. Welcome to the Murano atelier where from concept to captivation the present is shaped by the past and there is a respect for heritage. Each piece flawlessly crafted to adorn the finest windows and the most inspired designs. It's the art of glass... created, nurtured and reimagined.

artisan quality
ARTFULLY
designed

Crystal Collection

It's the quintessential look that exudes confidence. Crystal — design innovation with style exuberance. From urban chic to modern and retro. From 90 degree precision edges to elegant curves. And while the attention to function with substance is certainly foremost, raising the standard from ordinary windows to highly desirable statements is equally celebrated.

THE FACETS & fascination with CRYSTAL

Crystal has allure. It has decadence. It transcends trends. For darker window treatments, crystal finials add depth and complexity. Or, go light and bright and watch it pop. The beauty of crystal is there is no color scheme it can't complement. Yes, it's unashamedly sophisticated, yet works equally well when juxtaposed with an industrial look. Think of it as a visual celebration to any room. A touch of personality, style and a whole lot of individuality. Perhaps it's the perfect match for those looking for innovation without abandoning tradition.

DRESS

code for your

CURTAINS

Acrylic Collection

For window treatments of character. Whether discreet or decadent — make it your own. The Acrylic Collection brings out our most inspired designs with surface appeal. From urban chic to warm modern, each piece complements the atmosphere and scale of the room. Precision cut and polished for optimal refraction and sparkle. Everything starts with inspiration, then add a touch of curiosity. So although our finials and hardware are often used as “jewelry” in a room, you may want to use them because they function beautifully as well.

REFLECTIONS *in* METAL

Metal Collection

There is something about the authenticity and purity of metal. The shimmering surface is beyond compare. And unlike others, Deco & Deco hardware is crafted from the purest and high-grade raw materials. With solid brass construction, all of our metal and rods maintain structural integrity from “inside” so they don’t corrode, “outside”. Thus the finish achieved provides added luminosity and smoothness due to the solid brass core — as opposed to simply covering an inferior option. At Deco & Deco our beauty... and value are far more than skin deep.

TOOLS *of the* TRADE

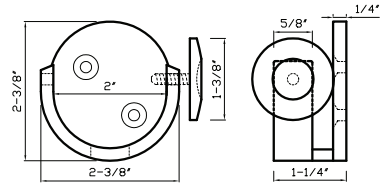

Brackets, Rings & Rods

It's often heard — make it compelling. Make it swoon-worthy and now... make it fit. Nothing stops a window treatment project quicker than not finding the hardware accessories required for that extra wide, extra deep window. So having the necessary sizes and accessories is what we do. Connect, extend, project... yes, we cover that in up to 12 finishes. Brackets, rods and accessories that both complement and function with simplicity and ease. Ensuring you have the look desired in the configuration needed. It's nothing short of performance art.

WINDOWS to the WORLD

Whether you're imagining or reimagining a space, windows are a focal point. A place to slow down, to gaze, to sit, interact and contemplate. And while drapery hardware is functional, it also offers opportunities to be evocative, iconic or even experiential. So explore our line — a curated selection of designs for designers.
